

Last day at the EPOS Seismology Workshop 2019 and ORFEUS Annual Meeting in Grenoble, France

Date:

Thursday, October 10, 2019 - 12:00

The 2019 EPOS [TCS](#) Seismology workshop (7-10 October 2019) is getting to the end. The workshop is taking place at the campus of Université Grenoble Alpes, namely at the Institut des Sciences de la Terre (ISTerre) and at the Centre Technique du Papier (CTP).

The four days event has comprised oral, poster and demo / hands-on sessions, lectures, discussions on the following thematic areas:

- Big Data in Seismology
- Real-Time Seismological Data Products
- Data Quality, Availability, Accessibility
- Current and Future EPOS Seismology Services

During the workshop it has been organised as well the ORFEUS Annual Observatory Meeting and Workshop and the meeting of the EMSC General Assembly.
