

EPOS presented @ 10th Gulf Seismic Forum 2018, Muscat (Sultanate of Oman) 19-22 March, 2018

Date:

Thursday, December 21, 2017 - 16:00

The 10th Gulf Seismic Forum 2018 will be held at the Sultan Qaboos University, Muscat, in the Sultanate of Oman during March 19-22, 2018.

Dr. Rui Manuel Fernandes, from SEGAL (UBI/IDL), Covilhã, Portugal, and member of EPOS team, will attend the conference and present EPOS, a holistic, sustainable, multidisciplinary research platform which provide coordinated access to harmonized and quality controlled data from diverse Earth science disciplines, together with tools for their use in analysis and modelling.

The conferences on “**Seismology and Earthquakes in the Arabian Gulf Region**”, provided an opportunity for scientists and engineers to present relevant results, to propose potential collaborations, and identify areas requiring additional research.

Registration & visa application deadline on January 04, 2018.
