

ESFRI Scripta 2nd volume: WG report on "Long-Term Sustainability of Research Infrastructures"

Date:

Monday, February 12, 2018 - 13:30

ESFRI (European Strategy Forum on Research Infrastructures) published the second volume of Scripta series last October 2017.

The volume is dedicated to the outcomes of the ad hoc Working Group (WG) on Long-Term Sustainability (LTS) of Research Infrastructures.

The LTS WG has analysed the Long-Term Sustainability of Research Infrastructures from a broad perspective taking the ESFRI viewpoint well beyond the mere economical analysis.

The scripta can be downloaded [here](#).
