

EPOS GeoEnergy Test Beds session @ the RFG meeting on June 16-21, 2018, in Vancouver, Canada

Date:

Monday, February 12, 2018 - 15:30

The Resources for Future Generations conference on Energy, minerals, water and the Earth will be organized on June 16-21, 2018 at the Vancouver Convention Centre in Vancouver, BC, Canada.

During the RFG there will be a session on Energy Test beds titled: The Role of GeoEnergy Test Beds in Developing Future Energy Systems. It extends across the low carbon energy sector and WP17 has an abstract in preparation for the EPOS GETB work package.

The conference is estimated to attract 4.000 to 5.000 scientists, policy-makers, industry representatives and members of civil society.

Deadline to submit an abstract 12 February 2018.

More information to submit an abstract, following the guidance [here](#) or at the [EPOS GETB website](#).
