3rd meeting of the EPOS IP Board of National Scientific Representatives (BNSR) in Lisbon (Portugal), 15 March 2018

Thursday, March 15, 2018

Location:

Lisbon, Portugal

The EPOS IP Board of National Scientific Representatives (BNSR) meet for the third time in Lisbon (Portugal) the 15th March 2018 at SANA hotel. The meeting is held after the EPOS Implementation and Validation Workshop and EPOS Service Coordination Board ([SCB](#)) meeting.

The main goal of the meeting is to discuss the status of the [TCS-ICS](#) Validation Process and timeline and the interaction with the Board of Governmental Representatives.

The validation process that the EPOS Project Development Board ([PDB](#)) and EPOS Service Coordination Board ([SCB](#)) have finalized and that the EPOS Board of Governmental Representatives ([BGR](#)) has approved is aimed at identifying the Data, Data-products, Services and Software ([DDSS](#)) elements that will enter into the pre-operation phase in fall 2018 and it involves technical, legal, governance and financial eligibility.

The meeting will discuss as well the funding priorities for EPOS, including harmonization with national priorities, service providers, and the [TCS](#) Cost-book.
