Job Position: EPOS ERIC Head of Administrative Unit

Purpose: The Head of Administrative Unit will run the EPOS ERIC administrative activities under the direction of the EPOS ERIC Executive Director

Contract: Full time employment, with 6-month probation period

Service Group: EPOS ERIC Executive Coordination Office - Administrative Unit

Location: EPOS ERIC Headquarters, Via di Vigna Murata n. 605, 00143 Rome (Italy), c/o Istituto Nazionale di Geofisica e Vulcanologia

Working Language: The working languages are English and Italian.

Brief Description of the EPOS

EPOS, the European Plate Observing System, is a long-term plan for the integration of national and transnational research infrastructures for solid Earth science in Europe. EPOS brings together European nations and combines solid Earth science infrastructures and their capital of human expertise, data, and services into one multidisciplinary and integrated system for a better understanding of planet Earth dynamics.

On October the 30th 2018, the European Commission granted the legal status of European Research Infrastructure Consortium (ERIC) to EPOS. The ERIC legal framework provides EPOS with legal personality and capacity recognized in all EU Member States and with the flexibility to adapt to the specific requirements of each infrastructure.

Based in Italy, EPOS ERIC is currently joined by thirteen countries: Belgium, Denmark, France, Greece, Iceland, Italy, the Netherlands, Norway, Poland, Portugal, Slovenia and the United Kingdom, and Switzerland participating as observer.

By linking up hundreds of individual research infrastructures located in the European countries, EPOS ERIC will provide open access to a large pool of integrated data, data products, services and through its Integrated Core Services Central Hub (ICS-C) platform and physical access to facilities.

The EPOS ERIC legal seat is hosted in Italy at the Istituto Nazionale di Geofisica e Vulcanologia (INGV) headquarter. The ICS Central Hub (ICS-C) is hosted in the United Kingdom (BGS) and France (BRGM) with technical operational support from Denmark (GEUS).
